* [REDACTED] Comment. The shipments dispatched to Brest Litovsk, Stettin and Zhabinka were deliveries by Soviet Zone hydrogenation plants to the U.S.S.R. Zhabinka, which has frequently been reported as a receiving station for fuel shipments, is on the Brest Litovsk-Carapovich railroad line. Fuel shipments to Stettin are transbanded there to ships. The fuel shipments to Gdansk were deliveries by Soviet Zone hydrogenation plants to Poland. The crude oil shipments entering the Soviet Zone came fromistersdorf in Austria. A fuel depot of the U.S.S.R. is located in Velten.
